Avg Purchase Frequency by Segment

Customer Segment	Total Customers	Total Monetary Value	Avg Customer Value	Avg Frequency	Avg Recency Days	Avg RFM Score	Revenue Share
High-Value	1345	\$12.1M	\$8,999	17	20	14	69%
Standard Customers	2209	\$3.3M	\$1,499	4	135	9	19%
At-Risk	270	\$1.0M	\$3,756	9	338	10	6%
Inactive	1645	\$0.7M	\$428	1	457	5	4%
Loyal	245	\$0.2M	\$870	5	24	11	1%
Opportunity	167	\$0.2M	\$1,109	2	86	8	1%

Key Insights

- High-Value customers have the strongest combination of monetary value, frequency, and recent purchase activity.
- Inactive customers have the highest average recency days, showing they have gone the longest without purchasing.
- At-Risk customers still have meaningful customer value but show weaker recent activity.

Filter Knowledge

- RFM Score is the total of the three RFM component scores respectively.
Example: 5 + 5 + 5 = 15.

Higher scores generally represent stronger customer value.

Top Customers by Monetary Value

Customer ID	Customer Segment	Recency Days	Frequency	Monetary	Recency Score	Monetary Score	Frequency Score	Total RFM Score
18102	High-Value	1	145	608,821.65	5	5	5	15
14646	High-Value	2	152	528,602.52	5	5	5	15
14156	High-Value	10	156	305,812.12	5	5	5	15
14911	High-Value	2	398	292,090.79	5	5	5	15
17450	High-Value	9	51	246,813.09	5	5	5	15
13694	High-Value	4	143	196,482.81	5	5	5	15
17511	High-Value	3	60	174,930.23	5	5	5	15
16446	Standard Customers	1	2	168,472.50	5	5	3	13
16684	High-Value	5	55	147,142.77	5	5	5	15
12415	High-Value	25	28	144,458.37	4	5	5	14
15061	High-Value	4	127	137,556.14	5	5	5	15
15311	High-Value	1	208	116,422.54	5	5	5	15

- Key Insights
- The top customers are concentrated in the High-Value segment.
 - Several customers have a perfect RFM score of 15, meaning they are recent, frequent, and high-spending customers.
 - Customer 18102 has the highest monetary value among the displayed customers.
